DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of Group II, claims 10-20 in Paper No. 9 is acknowledged. The traversal is on the ground(s) that there is a common thread running through each on the groups placed under restriction and that such restriction would result in a duplication of effort. This is not found persuasive because the product as claimed can be made by another and materially different process and subject matter covered by Group I is an intermediate product that can be used as a binder or adhesive.

2. The requirement is still deemed proper and is therefore made FINAL.

3. This application contains claims 1-9 and 21-22 drawn to an invention nonelected with traverse in Paper No. 9. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Art Unit: 1713

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

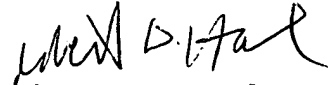

5. Claims 10-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Cope, EP 0 807 510 A1 (hereinafter "Cope"). Cope teaches a process for preparing an extrudable composite comprising a PVC polymer resin, cellulose, a stabilizer, a lubricant, wood flour and process aids. See Cope, page 2, line 19 through page 5, line 51. Thus, Cope anticipates claims 10-20.
